

Prof. Dr. Michał Buchowski
Chair
World Council of
Anthropological Associations

Prof. Soumendra Patnaik
Department of Anthropology
University of Delhi
President of Indian Anthropological
Association

Poznań, 28 April 2012

Dear Professor Patnaik,

On behalf of the Organizing Committee of the World Council of Anthropological Association, its former President Thomas Reuter, international delegates and indeed, all participants of the Symposium on “Anthropology of Global Issues” I would like to thank you for the organization of this combined organizational and scientific event.

Both were very successful. The Biennial Meeting of WCAA was attended by more than forty delegates and enabled us to move things forward in the consolidation of this unique global network of anthropologists. India, the city of Delhi and the University of Delhi will be written into the history of this still very young organization as one of milestones in its development. The Symposium, attended by hundreds of international and Indian scholars was an inspiring and productive intellectual event, from which we hope to produce a volume. This gathering gave us an opportunity to meet many scholars from various corners of the world, but especially from your country. Such networking is invaluable for lifting local knowledge to the level of the global community.

We thank you and your collaborators, faculty members and students, for sacrificing your time and energy for the common good. Please also extend our gratitude to the Head of your Department, Prof. S. L. Malik, and the Pro Vice-Chancellor of the University of Delhi, Prof. Vivek Suneja.

Sincerely yours,

Michał Buchowski
